## **Pricing and Ordering** **Jeff Currier's Original Fish Watercolors**

Request a species and Jeff can paint it, any species. It doesn't matter if it's a rainbow trout or a Texas flounder, he can do it. This can be a fish you caught, a friend caught, or simply a species (or set of species) of fish you want to decorate your wall with.

### **Ordering**

To get exactly what you want, send a photo. Jeff can go spot for spot on a trout or make that monster largemouth just as fat as you remember. If you don't have a photo, not to worry, Jeff has caught and photographed more kinds of fish than any angler could dream of. He will retrieve a photo from his stock and you will wonder if he was there when you caught your fish! Just for the record, he'd love nothing better than needing to study up on a fish he's not familiar with. Good luck finding one!
